NO. 217.

NORMAL OFFERS 60 SCHOLARSHIPS

ONE TO EACH COUNTY SCHOOL SUPERINTENDENT.

REGENTS SERIES FOR HIGH-GRADE PUPILS

Each Has Value of \$24 Annually and is Open to Every High School in the District.

The State Normal school of Maryville is establishing and offering for the first time a definite series of scholarships, open to graduates of standard four-year high schools of its territory. These scholarships will be awarded at the annual commencement of the schools this spring, and will be available at the opening of the next school year, beginning September 1, 1916. Scholarships at present determined upon are of two series:

1. The regents scholarship series. (a). One scholarship to be awarded to the highest ranking student who will use it, selected from the six graduates ranking highest in the fourth year's work of the annual graduating class of each first class high school in the nineteen counties of this Normal school district, provided the student's average standing is that of medium rank or above.

(b). Each scholarship will be of the value of \$24.00, payable in three equal installments, or one-third at the beginning of the calendar month following the opening of each quarter in which the scholarship is used. The student will pay the usual incidental fees at the opening of the quarter.

(c). Holders of these scholarships may attend any three quarters of the school year, beginning September 1st of each year, preferably three consecutive quarters.

(d). The scholarships are valid only within the year for which they are awarded.

2. County superintendent scholarship series.

(a). One scholarship of the value of \$24.00 to be awarded annually through the county superintendent in each of the nineteen counties of the Fifth Normal school district, to be used during the school year, beginning September 1st following the award.

(b). These scholarships shall be awarded to persons nominated by the county superintendent who may most profit thereby, and who is preferably a graduate of a four-year high school.

(c). These scholarships shall be payable in the manner indicated under the regents scholarship series.

If each of these scholarships is used during each year, it will represent an attendance of approximately sixty new students from every part of the Normal school district each year, and the number will increase as the number of first class high schools increases.

The design of the President and regents in offering the scholarship is two-fold. It is their desire to increase the number of high school graduates in attendance at the State Normal school here, and to encourage attendance at the nearest high school upon young people in this district by putting the premium upon graduates of such institutions.

WATCH WESTERN SKY SUNDAY

Beautiful "Double-Star," Caused by Conjunction of Venus and Jupiter Will Be Visible.

A beautiful astronomical phenomenon will be visible early in the evening of Sunday and Monday morning if the days are clear. The demonstration is known as the "conjunction" of Jupiter and Venus. No telescope will be required.

The two stars are the brightest of the planets and they will appear as a great double-star just after sunset close to the western horizon. They will be separated by less than half a degree. Venus is about the size of the earth and makes its orbit around the sun in 224 days. Jupiter gets around its orbit once every twelve of the earth's years.

WILLIAMS AND ARTHUR FINED \$20 ON EACH COUNT.

COUNTY TO TRY MEN TOO

W. G. Sawyers, Prosecuting Attorney, Orders Arrests—Bonds Fixed at \$200 Again.

Ira "Shorty" Williams changed his plea of not guilty to guilty to gaming before Mayor Wright late yesterday afternoon and was fined \$20. Another one who was arrested for gaming, Eugene "Rags" Arthur, also changed his plea and pleaded guilty to two counts of gaming and one for drunkenness. He was fined \$20 on each count for gaming and \$5 for drunkenness.

The remaining one, Alfred Green, who was arrested for gaming with this party, had his case continued until 10 o'clock Monday morning.

Soon after the city had disposed of these cases, Prosecuting Attorney W. G. Sawyers issued information for the arrests of Bill McMillan, who pleaded guilty to gaming yesterday afternoon before Mayor Wright, and "Shorty" Williams. Their bond was fixed at \$200 apiece and their cases will come up at the April term of circuit court.

The state will also issue warrants for the others who were arrested by the city, Jack Pennington, the first one to be convicted of gaming by the city, was arrested by the state. His bond was also fixed at \$200.

All of these men were arrested for gaming in a room over Binter & Lugar restaurant. The city will also probably make other arrests for gaming within the next few days.

Dudley Rice was arrested this afternoon on a charge of gaming by City Marshal E. E. Tilton as being in one of the gaming cases in the room over the Binter & Lugar restaurant. He pleaded not guilty to the charge before Mayor Wright and trial was set for Monday at 10 o'clock.

Special to The Democrat-Forum.

Berne, Switzerland, Feb. 11.—The permanent committee for the establishment of lasting peace met today for the formal proposal for armistice. None of the belligerent countries were officially represented.

It is said, however, that some of the delegates have assurances from Berlin that Germany will give benevolent consideration to any peace overtures coming from the allies.

Prince von Buelow, generally considered the leader of the German peace propaganda, arrived at Lucerne today, accompanied by Prince Lohenlohe and Baron Kraft.

A marriage license was issued in St. Joseph yesterday to Lester S. Jasper of Ravenwood and Ella Bentley of Parnell.

M. A. Peery, title examiner. Dr. F. M. Ryan, County Physician. E. R. Bailey, janitor at court house. Will Job, County Superintendent of Poor Farm.

The above appointments were made by the county court in session this morning.

There were three applications considered for county physician and member of health board by the court: Dr. Ryan, the present incumbent, Dr. Karl Malotte and Dr. F. C. Wallis.

M. A. Peery was the only applicant for title examiner.

For janitor at the court house there were six applicants: E. R. Bailey, Will A. Lock, G. W. Irwin, H. C. Humphrey, Mark Dalrymple and Charles E. McClain. Two members of the court voted for Bailey and one vote was cast for Irwin. The salary of the janitor is \$50 a month. Bailey, the successful one, was the janitor of the court house last year.

No appointment was made for county highway engineer. There were two applications for this position, those of Joseph Reese and John H. Clary. The court decided that the salary of the county highway engineer should be \$300 a year. Reese wanted \$720, agreeing to pay his own expenses. Clary wanted \$1,500 and expense of travel.

Will Job was reappointed as superintendent of the county farm, being the only applicant. His salary will be \$65 a month without any outside help, and \$50 a month with help.

JOPLIN LIKES NEW FORM MAY GET CHICAGO TRAIN

MAYOR AND FATHER OF BILL WRITES TO THIS PAPER. EVENING BURLINGTON TO COME AT 7:40, SAYS RUMOR.

Hugh W. MacIndoe Says Many Who Opposed Change Now Favor Commission.

Joplin, the first city in Missouri to adopt the commission form of government, likes the new system. Its mayor, Hugh W. MacIndoe, fathered the bill in the legislature and was chiefly responsible for its enactment. He has written the following letter to The Democrat-Forum concerning the work of the new government in Joplin:

Gentlemen: The city of Joplin is operating under the charter as found in the session acts of Missouri, 1913, under the title "Cities of the Second Class." If Maryville should adopt commission form it would be under the charter as found in the session acts of Missouri, 1913, under the title "Cities of the Third Class." The question of adopting commission form of government for Joplin was voted on in October, 1913, and it became effective in April, 1914.

During that time it has given excellent satisfaction, both to the officials and to the public. Elections are non-partisan and all appointments are made upon the merit system through requirements of the civil service commission. Politics are entirely eliminated from the city government. Our charter carries the recall provision, which affords the people protection from an unscrupulous official.

We have four commissioners and the mayor, each one at the head of his own department and assuming all the responsibilities of such department. A great number of our citizens who were formerly opposed to commission form now admit that it is a great improvement over the old councilmanic system. I am inclosing herewith a printed statement showing the new form of government to be more economical and efficient than the old system.

If I can furnish you with any further information, I shall be pleased to do so. Very truly yours, HUGH W. MACINDOE, Mayor.

GARRISON'S SUCCESSOR BY TUESDAY CABINET MEETING.

FORMER SECRETARY WANTED OWN PLANS

President Wilson Refuses Constantly to Push Any Favored Defense Measures in Congress.

Special to The Democrat-Forum.

Washington, Feb. 11.—Speculation as to his successor has taken the place of the surprise of the country at the resignation late yesterday afternoon of Lindley M. Garrison, secretary of war in the cabinet of President Wilson.

The White House announced today that the appointment would be made at once, not later than at the Tuesday cabinet meeting. Assistant Secretary Breckenridge resigned also as a mark of loyalty to his chief, whose views he shared. His successor will be named at that time also.

Major General Scott, chief of the army staff, was designated by executive orders signed by President Wilson today to become acting secretary of war for thirty days.

Among the names which are being considered for the place are Frederic W. Lehmann of St. Louis, who was also mentioned for supreme justice, Secretary of Agriculture D. F. Houston and Joseph Tumulty, private secretary of the president.

Mr. Garrison's reason for quitting the cabinet was the refusal of President Wilson and congress to endorse his continental army plan in preference to the reorganization of the National Guard. The president refuses steadfastly to push any favored plans.

SAME BEARCAT LINE-UP

NORMALS HAVE MUCH CONFIDENCE FOR SPRINGFIELD.

Loss at Tarkio Last Night Helps—President Richardson Gives Banquet for Teams.

The same Bearcat line-up which started the Jewell game last week will start against Springfield normals tonight in the Normal gymnasium. They are Howard Leech and Vandersloot, forwards; Garard, center; Scarlett and Homer Scott, guards.

Director Walter Hanson announced today that he had succeeded in getting A. L. Palmer, director of athletics at the Kansas City Veterinary college, to referee the game. Palmer gave good satisfaction in the Springfield-Central game at Fayette Tuesday.

Tarkio defeated Springfield last night. Missouri Wesleyan was the loser in the Wednesday night game 54-24. These scores make the Maryville Normal team all the more confident that they can send the Ozarkers back with an even break on their trip by taking a victory tonight.

President Ira Richardson of the Normal game the first and second team squads a banquet at the Linville hotel last night. Besides Director Hanson and Coach Palfreyman, the guests were Captain Leech, Vandersloot, Lollis, Garard, Scarlett, McClintock, Walter Scott, Homer Scott, Helfner, Wake-man, Lyle, Hahn and Wilson.

A short talk was made to the teams by President Richardson after the meal, but the lyeum course prevented an extended program.

The Neighboring Towns Rejoice

That neighboring towns are rejoicing with Maryville over one of the greatest majorities ever given against a saloon in Missouri will be seen by the following clippings from our exchanges:

At the recent local option election held at Maryville, the city voted dry by a majority of 702.

The people outside of the city are almost as well pleased as the people inside the city, for they think it will help the country at large.—Elmo Register.

Better Support for Normal.

Word was received here early Friday morning from Maryville, on the "wet or dry" proposition of the preceding day there were 894 for dry, and 192 for wet. This certainly presages a better support for the State Normal than had it gone the other way.—Mound City Journal.

Whole State in Four Years.

All Maryville was well pleased with the local option election held in that city last Thursday. The town went dry by 702 majority. The vote was 894 for to 192 against. It is said as soon as it was seen that the town was going "dry" all the "wet" people who had not voted cast their votes for the "dry" ticket. Anyway, it was a big landslide for local option. This makes Nodaway county dry. St. Joseph is the closest town in northwest Missouri where liquor can be purchased and it is predicted that in less than four years the entire state will be without saloons.—Parnell Sentinel.

Shake Hands Maryville.

Maryville fell in line on last Thursday and did for herself one of the greatest deeds for uplift that is possible, by placing herself in the dry column with an overwhelming majority. Old man booze has had some awful punches in the last two years and our opinion is he can't get too many. When Russia jumps into the dries—it is high time for these United States to line up. Maryville has climbed on the wagon and she will find that though taxes may be a little higher, there will be more money to pay them. Merchants will find credit accounts will diminish and those kept will be worth par. Jail and court expenses will decrease. There will be no reeling drunks to obstruct or insult innocent travelers on the streets. You're on the right track, Maryville and everyone of your neighboring towns wish you well. Shake!—State Line Herald (Blanchard).

Much Credit to Newspapers.

A great corner of Northwest Missouri was made dry last Thursday when Maryville, the county seat of Nodaway county and the home of the district normal school, voted to oust saloons by a majority of 702. As a result of the election two of the highest licensed saloons in the United States, each paying a yearly fee of \$5,200, will go out of business. The newspapers of Maryville led the dry fight and much credit is due them for the decisive victory.

In a letter to the Missourian, Ira Richardson, president of the Normal, says: "You may tell your readers that their Normal school is located in a community whose citizens appreciate their responsibility as custodians of a state school, and that students of this school are surrounded by as strong safeguards as can be found in any school location. Maryville has spoken in no uncertain terms."—Gallatin North Missourian.

Can Boost Normal Now.

The election at Maryville last Thursday resulted in a great victory for the temperance people, there being 894 votes for local option to 192 against. The two saloons of that town which paid \$11,000 to the city for the privilege of selling liquor will be put out of business soon. In view of this action we can all boost the northwest State Normal now. We hope that all Daviess county young people who desire a higher education will hereafter consider the claims of this institution favorably. The newspapers of Maryville, The Democrat-Forum and Tribune, did great service

Good Advertisement for City.

Now that the people of Maryville have spoken in no uncertain terms on the saloon question, the last obstacle to a college town has been removed and the verdict will be a great advertisement for the school and the town.—Bethany Democrat.

To Be Highly Commended.

At a special election at Maryville Thursday the two \$5,200 saloons were voted out by a majority of 702, there being 192 "wet" votes, 894 "dry" votes, a total of 1,086. Maryville is to be highly commended.—Worth County Tribune.

Satisfaction to All.

The people of Maryville spoke in no uncertain terms at the election held in that city last Thursday. There is one thing that they are to be congratulated upon and that is there are no sore spots or ill feelings existing among the citizens over the results, as is generally the case in such elections. It was a matter that concerned them and was for them to decide, which has been done to the satisfaction of the people of Maryville.—Conception Courier.

Swept Platter Almost Clean.

Hopkins wishes to join the many others in extending congratulations to Maryville over the result of the local option election held in that city February 3, when the town voted "dry" by a majority of 702 out of 1,086 votes cast, showing that when the papers of a place join with the ministers and better element in general in fighting an evil, the platter is swept almost clean.—Hopkins Journal.

Now For Good Ball Team.

Maryville citizens voted on local option last Thursday and the "wets" were snowed under so bad that it is doubtful whether they will ever be resurrected. The "drys" turned in a vote that made old Satan shake. They knocked out the two highest licensed saloons in the United States by a majority of 702 votes. The "wets" only showed up 155 for the sale of intoxicants, which shows that they were few and far between. Undoubtedly if many of Stanberry's customers could have gone up and voted they would have made it a little stronger for the "wets" but soon the travel up on No. 3 and back on No. 14 won't be so great and Maryville will have less visitors from the "wet" source of Gentry county.

Some folks will now have to make friends with some kind of stomach bitters or join the pump aggregation and drink heartily of the city water. Both of the daily papers of Maryville were a big help to the "drys" and they fought a good battle, and every decent citizen should congratulate them on their strong fight. Editor Hall of the Tribune kept constantly placing the situation before the many readers every day. The Democrat-Forum staff also hit them hard. Many folks would not send their children to the State Normal on account of the saloons. Now that the city has voted dry they can enroll them, and from all the talk by Nodaway county papers there will be many enrolled. Maryville has long had the name of getting the highest saloon license of any town or city in the United States, getting from each saloon \$5,400 a year.

Maryville is all right—a good, live town, fine buildings and good accommodations. The only thing Maryville never had was a good ball team, and if they ever get a good team, then she'll be a hummer. But the ball team proposition for that city is all a joke. Attention, Mr. Funk—Stanberry Owl Headlight.

Now Proud of County Seat.

The election held in Maryville last Thursday to determine whether the saloons should be shut up or allowed to continue, was somewhat of a surprise to almost every one, as the result showed that that city is strongly in favor of the saloon going out of business. It was generally conceded it would go dry but it was not thought the majority would be as large as it was. The total vote was 1086, and of that number 894 was against the saloon and only 192 for it. This showing is surely gratifying to the entire county, also to surrounding counties.

The Maryville anti-saloon forces sure have cause to feel proud of the campaign they made for a pure town.

There is great rejoicing over the result all over the county, as every one has a pride in their county seat and as long as the saloon was allowed to run there they could not point to it with genuine pride, but now they can, also with pride at the overwhelming vote by which the people sat down on the nefarious business of our otherwise progressive and beautiful country town. This will also be a great thing for the State Normal school that is located there, as the people can now send their children there with no fear of the immoral influences that are always to be found where the saloon is countenanced. This is not only true in the county but in all the adjoining counties.—Clearmont News.

THOS EDISON 69 TODAY

WILL CELEBRATE IT AS USUAL IN THE "LAB."

Noted Inventor Tells Friend of 21 Years That He is Just as Youthful.

Thomas Alva Edison reaches the sixty-ninth milestone of his life today. The years seem to rest lightly on the great inventor. He is still hale, hearty and active and as deeply interested in what the coming year has in store as a youth with all of life ahead.

"The future means as much to me at sixty-nine as it does to you at twenty-five, young man," said Mr. Edison to a young friend not long ago.

In other words, Edison is "still going strong" at sixty-nine. Not a day passes that he does not spend from twelve to eighteen hours in his laboratory. He shows no signs of slowing up the pace he has held for over fifty years. He is alert and not a detail of the business around him escapes his eye and attention. To those who are associated with him in business he is "Our Old Man." Edison, white-haired, stepping briskly, is a familiar figure in every corner of his vast laboratories at Orange, N. J.

It is a difficult matter to corner Thomas A. Edison, to get him really to the point where he will give up a few minutes to an interview. He is naturally averse to interviews, anyway. He has a distaste for publicity. He is a poor press agent. Like Napoleon, he will gladly give up almost anything except time. And when a visitor is lucky enough to corner him somewhere in the laboratory, the inventor is usually occupied with something that demands his attention every minute.

"Where's the 'Old Man'?" asks someone who just must see Mr. Edison on important business.

"In the lab," is the usual answer.

"Well, I've just got to see him."

"Not a chance. He's been in the lab all morning and he'll be there all afternoon and part of the night from the way things look. Left orders not to disturb him."

That's the way Edison spends most of his time. In the lab. And that's how he will spend his birthday.

Asked for a little birthday talk, Mr. Edison replied: "The way to be happy and healthy is to be busy all the time. I find that as I approach sixty-nine I have just begun to live. If you are busy you don't have time to grow old. I don't work by the clock and accordingly I don't feel that I am getting any older. I work till I finish a thing, and then," here Mr. Edison smiled, "if there is nothing else to be done, I go home. I hope that everyone will feel as young and as pleased with life as I do when their sixty-ninth birthday comes along."

Send for The Cook's Book By Mrs. Janet McKenzie Hill It's FREE

Our instructions to the famous editor of the Boston Cooking School Magazine were: "Get up a book of recipes of the things people like best. Find the best way to make and bake each one. Then write it out so plainly that even an inexperienced housewife can't have a failure."

"The Cook's Book" was the result. Some of the 90 recipes were originated, many of them were improved upon, and all were personally tested by this best known authority on cooking in America, and she tells so clearly how she made everything that one cannot go astray.

While some of the cakes and pastry are elaborate enough for any occasion, the recipes are all thoroughly practical and call for no expensive and unusual ingredients. In addition to telling how to make them, the book is beautifully illustrated in colors showing how to arrange and serve the dishes appetizingly.

More than half a million of "The Cook's Book" are now in use in American households. Yet the demand is constantly increasing. Many send for two or three at a time to give to friends or young housekeepers. Don't depend on borrowing one from a neighbor—have one of your own.

How to Get "The Cook's Book"

In every 25c can of K.C. Baking Powder is packed a colored certificate. Send us one of these certificates (paste it on a postal card if you like) with your name and address plainly written, and "The Cook's Book" will be mailed free of charge. Only one book for each certificate.

POOR COUNTY FOR FEEDING

Season and Conditions Bad, Say Peter I. Locks and Floyd Weller in St. Joseph.

"There are very few cattle being fed in my vicinity this season," said Peter I. Locks, a prosperous young stockman of Skidmore, who was down today with a car of hogs of his own raising. Few stock cattle are being wintered, but every one is buying calves and roughing them through until next summer, when they will be grassed and fed

out in the fall. If the market holds up many cattle will be put on feed by spring."

Floyd Weller, a well known farmer and feeder of Nodaway county, who was in today with a load of hogs of his own raising, reports that his vicinity is in a poor shape to do much feeding this season. "The corn was poor and is selling at 79 cents a bushel," said Mr. Weller. "Most of the hogs have been shipped out light and comparatively few cattle are being fed. There is quite a bit of roughness that could be utilized by stock cattle, but very few of them are being wintered."—St. Joseph Stock Yards Journal.

Ozark Mothers Used To Be Afraid To Go To Bed At Night

Now Sleep Soundly Since They Have Found a Sure Preventive For Croup.

Many mothers, besides those of Ozark, Mo., have been afraid to sleep at night for fear of being awakened by that dread croupy cough. Mrs. H. H. Givan and Mrs. J. J. Cave, both of Ozark, have found, in common with many other Missouri mothers, that a jar of Vap-O-Rub in the house insures a good night's sleep.

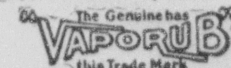

Vap-O-Rub is the external treatment for all forms of croup or cold troubles, introduced here from the South last winter. It is in salve form and you just rub it over the throat and chest, covering with a warm flannel cloth. The body warmth releases antiseptic vapors that are inhaled with each breath, loosening the phlegm, and, in addition, Vap-O-Rub is absorbed through and stimulates the skin, relieving the tightness and soreness. Croup is usually relieved in fifteen minutes, and a

good application at night will, in almost every case, prevent a night attack.

But let Mrs. Givan speak for herself. She writes—"I have used Vick's Vap-O-Rub on my little girl for croup. I rubbed it on her chest and throat and it is just splendid, and I wasn't afraid to go to bed at night."

Mrs. Cave says—"I find Vap-O-Rub the best thing I have ever used for colds, sore throat, croup and all kinds of skin troubles for children. I could not do without it now, as it saves calling a doctor."

The penetrative quality of Vick's makes it excellent also for inflammations of the skin, such as burns, bruises, itches, piles and muscular soreness. In these cases, particularly in cases of burns, it seems to draw out the inflammation and has a delightfully cooling effect. Three sizes, 25c, 50c or \$1.00. The Vick Chemical Company, Greensboro, N. C.
